

150 Day Notice Saver

Account Name	150 Day Notice Saver (Issue 2)
What is the interest rate?	<p>The current interest rate is 4.25% Gross/AER.</p> <p>Interest is variable, calculated on a daily basis and is paid annually on 31 December. Interest can be added to your 150 Day Notice Saver (Issue 2) account, paid to another suitable Furness account or an external bank/building society account.</p>
Can Furness Building Society change the interest rate?	<p>As the interest rate is variable, we may change the rate if we reasonably believe that the change is needed. If we increase the rate we display this information in our branches and on our website.</p> <p>If we reduce the rate we'll let you know at least 14 days before we make the change. For more information on why the interest rate on your account might change, take a look at Section 7 of the General Savings Terms and Conditions.</p>
What would the estimated balance be after 12 months and at the end of the fixed rate period based on a £1,000 deposit?	<p>Based on the current rate of interest, if you deposited £1,000.00 in this account, after 12 months you would have £1,042.50.</p> <p>This figure is for illustration purposes and is based on no additional deposits, withdrawals or changes in interest rate within a 12 month period.</p>

Please note:

Where interest is paid Gross this means tax will not be deducted from the interest Furness Building Society pays on your savings.

If the total Savings interest you receive in a tax year is more than any Personal Savings Allowance that applies to you, you may have to pay tax on it. You will need to do this directly with HMRC, as Banks and Building Societies no longer deduct tax from your account interest.

From 6 April 2016, if you're a basic rate tax payer you'll be able to earn up to £1,000 in savings income, tax free. Higher rate tax payers will be able to earn up to £500. Additional rate tax payers will not receive any savings interest tax allowance.

AER stands for the Annual Equivalent Rate and illustrates what the interest rate would be if interest was paid and added each year (excluding bonuses).
